Code Screenshots

- Admin permissions

```php
public function run()
{
    // reset cached roles and permissions
    app()[\Spatie\Permission\PermissionRegistrar::class]->forgetCachedPermissions();
    $adminPermissions = [
        'list-user',
        'view-user',
        'create-user',
        'edit-user',
        'delete-user',
        'list-company',
        'view-company',
        'create-company',
        'edit-company',
        'delete-company',
        'list-vehicle',
        'view-vehicle',
        'create-vehicle',
        'edit-vehicle',
        'delete-vehicle',
        'list-file',
        'view-file',
        'create-file',
        'edit-file',
        'delete-file',
        'list-settings',
        'view-settings',
        'create-settings',
        'edit-settings',
        'delete-settings',
    ];
    // 'long-manage'
```

- Company list function

```php
public function index()
{

    //check if role superadmin or permission manage-company
    if($this->getUser()->can('list-company') || $this->getUser()->hasRole('super-admin')){
        $companies=Company::all();

            return response()->json([
            'responseMessage' => ($companies->isNotEmpty()) ? $companies : 'Company not found',
            'responseStatus'  =>($companies->isNotEmpty()) ? 200 : 404,
        ]);
    }
    else{
            return response()->json([
            'responseMessage' => 'Permission denied',
            'responseStatus'  => 403,
        ]);
}
```
